

Bellow Theatre

Bellow Theatre formed in April 2014 and is a collection of Hull and Bristol graduates. As a company we are fascinated by stories. We enjoy taking a fresh twist on old tales or creating completely new narratives of our own. We often like to stage work in unusual places, we've staged shows in a pop up restaurant, under an oak tree, in a club and a café, as well as a few traditional venues along the way.

We try to tell stories that are touching, funny and above all relevant. We always try to uncover the hidden voices in a tale, the voices of those who may have been forgotten, excluded or silenced. We strive to create shows that amuse and move people in equal measure, and that invite them to explore their own lives through new and fascinating lenses.
